

World Water Day's Event 2018

11 Mar 2018

In conjunction with World Water Day, 100 Nee Soon South households were awarded for their efforts to save water. These residents had participated in the Water Saving Contest for the period January 2017 to December 2017. Grassroots Adviser, Er. Dr. Lee Bee Wah presented \$100 worth of vouchers to each household.

At KTPH's auditorium, residents learnt more about water-saving tips such as the use of water saving taps, washing machines with water saving feature, shorter shower times; recycle shower water to flush the toilet and use of water-saving features on toilet bowls.

After the launching of World Water Day, about 250 Nee Soon South residents went on with their litter-picking exercise at the grounds of Khoo Teck Puat Hospital and Yishun Pond.

Launch Mechanism: Make Every Drop Counts!

Residents pledging not to Habit Pledge “do not litter and” and Water Saving Pledge “to use water prudently”.
