

A Day for Dads to Remember

Organised by Nee Soon South CCMC, Father's Day Dinner was prepared for fathers and their family members on 16 June 2018. A day for Dads to remember as they gathered for a night full of celebrations over dinner together with entertaining songs on the theme, 'Travel'. About 300 residents, joined by Grassroots Adviser, Er. Dr. Lee Bee Wah participated in this event. In her speech Dr Lee noted that as fathers become more involved in bringing up their children, we need more spaces for them in parenting-related forums and discussion groups.

The night was marked with a climate action pledge where residents committed to contribute to climate sustainability in their daily living. One of the main highlights was the participation draw where travel vouchers were given out as prizes. Residents also enjoyed thoroughly the Happy Hippo Show where fathers were selected to participate in some stage games.
